

Experiment 6

Execute and display the results for the following commands in Kali Linux Operating System:

`touch, pwd, wget`

Aim

To execute and study the `touch`, `pwd`, and `wget` commands in Kali Linux.

Procedure

1. Open the Kali Linux Terminal.
2. Execute the `touch` command to create a new empty file.
3. Execute the `pwd` command to display the current working directory.
4. Execute the `wget` command to download a file from the Internet.
5. Observe and record the output.

```
user@webterm:~$ ls
documents/  projects/
user@webterm:~$ touch testfile.txt
user@webterm:~$ touch testfile1.txt
user@webterm:~$ ls
documents/  projects/  testfile.txt  testfile1.txt
user@webterm:~$ pwd
/home/user
user@webterm:~$ wget
zsh: command not found: wget
user@webterm:~$
```

Result

Thus, the `touch`, `pwd`, and `wget` commands were successfully executed and their results were displayed in Kali Linux.
